CAREER OBJECTIVE :

I am a full-stack JavaScript developer skilled in TypeScript, React.js, Next.js, Redux, Node.js, Express.js, PostgreSQL, MongoDB (Mongoose), and Prisma, focused on building scalable, high-quality web applications. I bring strong problem-solving ability, clean architecture thinking, and experience across both frontend and backend. I seek a collaborative role where I can build impactful products, improve system reliability, and grow as a modern full-stack engineer.

TECHNICAL SKILLS :

- **FRONT-END DEVELOPMENT** | ReactJS * JavaScript * Typescript * Next.js * Redux * Tailwind CSS * Framer Motion .
- **BACK-END DEVELOPMENT** | NodeJS * ExpressJS .
- **DATABASE** | PostgreSQL * MongoDB (Mongoose) * Prisma
- **TOOLS** | Firebase * Git * GitHub * VS Code * npm * Vercel * Render * Stripe

INTERPERSONAL SKILLS :

- Time Management * Organizational Development * Hard-working * Adaptability .

PROJECTS :

1. TripNest - Travel Booking Platform (Dec`25 - Present) [livelink](#) [client-side](#) [server-side](#)

- Enabled users to book travel packages and complete payments seamlessly within the platform.
- Built a secure admin dashboard to manage packages, bookings, and payment workflows.
- Implemented role-based authentication with protected routes for users and admins.

Technologies : TypeScript, React.js, Next.js, Redux, Node.js, Express.js, MongoDB (Mongoose), Stripe

2. PharmaBazar - Online Health Marketplace . (june`24 - june`24) [livelink](#) [client-side](#) [server-side](#)

- Intuitive navigation for effortless product browsing and purchasing.
- Implements advanced security measures to protect user data and payment information.
- Gives administrators and sellers insights into sales, inventory, and user management.

Technologies : ReactJS, NodeJS, ExpressJS, MongoDB, Firebase, Axios, Stripe , Tailwind CSS .

3. EventSphere - Ticket Booking Platform . (sept `24 - nov` 24) [livelink](#) [client-side](#) [server-side](#)

- Enabled users to purchase tickets seamlessly within the platform for various events .
- Developed a real-time messaging system enabling users to communicate instantly during events.
- Implemented video calling functionality allowing users to engage in virtual meetings seamlessly.

Technologies : NextJS, NodeJS, ExpressJS, Stripe , Mongoose, WebRTC, Socket.IO , Tailwind CSS .

EDUCATION :

Bachelor of Education .

Govt. Teachers' Training College, Rangpur, Rangpur.

Session : 2023-2024 .

CERTIFICATIONS AND COURSES :

Next Level Web development . ([Certificate](#))

Organization : Programming Hero .
